SHUBHAM AKADE

JAVA FULL STACK DEVELOPER | JAVA DEVELOPER

Pune, India • 9373156685 • akadeshubham@gmail.com • LinkedIn: shubham-akade-b342211ab

PROFESSIONAL SUMMARY

Java Full Stack Developer with 1+ year of professional experience working on enterprise software at EPPS Infotech. Experience includes maintaining a 15+ year-old ERP product built with Java, Spring MVC, JSP, JavaScript and PostgreSQL, as well as contributing to a Fixed Asset project built with Java 17, Spring Boot, REST APIs, Angular and PostgreSQL. Hands-on with Spring Data JPA, JPA Specifications, Criteria Builder, MapStruct, Swagger/OpenAPI, Git and SVN.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, HTML, CSS
Backend: Spring Boot, Spring MVC, Spring Data JPA, JPA Specifications, Criteria Builder, REST APIs, Hibernate/JPA, MapStruct
Frontend: Angular, React.js, JSP, Tailwind CSS
Database: PostgreSQL, MySQL
API & Documentation: Swagger/OpenAPI, REST API Integration
Version Control: Git, GitHub, SVN
Tools & Infrastructure: Maven, Tomcat, NGINX, Linux

PROFESSIONAL EXPERIENCE

Java Developer | EPPS Infotech Ltd.

Jul 2025 – Present | Pune District, Maharashtra

ERP Product

- Work on the company's established Enterprise Resource Planning (ERP) product, with more than 15 years of product history, built using Java, Spring MVC, JSP, JavaScript and PostgreSQL.
- Maintain and enhance existing ERP functionality across enterprise business modules, working with established application flows, validations and database-driven business processes.
- Use SVN for source-code management while investigating issues, implementing fixes and supporting ongoing product maintenance.

Fixed Asset Project

- Contribute to a Fixed Asset Management project that is part of the ERP product, built using Java 17, Spring Boot, REST APIs, Angular and PostgreSQL.
- Develop backend functionality using Spring Data JPA, JPA Specifications and Criteria Builder for persistence, business logic and dynamic filtering.
- Use MapStruct for DTO/entity mapping and Swagger/OpenAPI for REST API documentation and testing.
- Work on asset lifecycle functionality including asset acquisition/purchase, purchase cost, useful life, depreciation rates, monthly/yearly depreciation calculations and asset valuation.
- Work on the Angular frontend and integrate UI workflows with REST APIs and backend business functionality.
- Use Git for source-code management for the Fixed Asset project and work with PostgreSQL for application data.

Java Full Stack Developer Intern | Robowaves

Dec 2024 – Jun 2025 | Pune District, Maharashtra

- Completed a 6-month Java Full Stack Development internship with hands-on experience in Java, Spring Boot and Spring MVC.
- Worked with AWT/Swing, Agile Scrum and development of standalone and client-server applications.
- Developed practical understanding of backend development, application architecture and full-stack development workflows.

PERSONAL PROJECTS

NASA API Implementation

Spring Boot 3.4.3 • Java 21 • React.js • Tailwind CSS

- Built a full-stack application integrating NASA public APIs to display Astronomy Picture of the Day (APOD) and Mars Rover photos.
- Developed RESTful backend services with Spring Boot and Java and a responsive React.js and Tailwind CSS frontend.

Cara – E-commerce Platform

Java • Spring Boot • JavaScript • HTML • CSS

- Developed an e-commerce web application for browsing and purchasing men’s and women’s products.
- Implemented responsive user-interface functionality using Java, Spring Boot, JavaScript, HTML and CSS.

EDUCATION

B.E. – Computer Engineering | Government College of Engineering, Chandrapur

Jul 2019 – Jul 2023 | Maharashtra, India

CERTIFICATIONS

- Java Full Stack Development
- IoT Certification – CIIIT GCOE Chandrapur
